If I could tell my incoming teammates one thing it would be:

When you're on the podium and you look back on your season, you know it was worth all the hard work and time. So work hard and don't have any regrets.

My best race was:

Windermere Cup 2006 against the Russians, without a doubt. Even though we took second to them by a smidge, there wasn't a disappointed face in the boat. I think I had an epiphany during that race – it was a great experience for me.

The best thing about Seattle is:

Laying in the sun at Gasworks and exploring downtown.

Personal: Daughter of Beverly Akins-Brown and Paul Brown ... Mother is a property manager.

I chose Washington because:

The great campus, a well-known and successful rowing program, a high-ranking business school, and also because the west coast is so nice.

The best thing about Seattle is:

You're never too far from anything – whether you want to go to a concert or a sports event or just explore the many places and things to do downtown. And definitely the mountains.

My best race was:

The Summer of 2006 at the Royal Canadian Henley. At the start line it was very windy and very wavy and off the start our bow seat caught three consecutive boat stopping crabs, which had us down to first place by about five boat lengths and down from last place by about two. So with just over 1500 meters to go we went straight into finish mode and started sprinting down the course passing three boats. As we crossed the finish line neither of us knew who had come second and who had come third. Even though we came third by 0.2 seconds in the end, we were really happy about making such a big comeback and only being down from first place by a second.

After I graduate, I plan to:

Continue rowing, travel for a while then find a job in international business.

If I could tell my incoming teammates one thing it would be:

Enjoy every moment here, because time flies by quickly and you don't want to miss out.

Brown says:

"If you're not first, you're last, but if you are there are two things to focus on: One, we tried hard and two, we're still dear friends!"

My best race was:

Pac-10 final freshman year. We battled with Cal all season and in the last 500m we finally realized there was no reason why we couldn't take them ... walking through them to the finish line was an amazing feeling.

After I graduate, I plan to:

Study physiotherapy.

If I could tell my incoming teammates one thing it would be:

Your body can handle more than it thinks. That voice telling you that you can't do it any more is just your body letting you know that things are getting a bit uncomfortable. Say thanks, and move on, whether it's rowing, school, or life.

I came to Washington to be on a team that would help me become a more grounded rower.

The best thing about Seattle is:

The weather because it's not 10 below or in the 100s and humid.

My best race was:

The 2005 Class Day Race when our junior class beat the seniors. There was a lot of harmless trash talking among the crews, but to our advantage, we beat them in style.

After I graduate, I plan to:

Take some time to travel abroad to Europe, Africa, and India. In the meantime, graduate school and rowing will be things I'll do as I go into the "real" world and work.

If I could tell my incoming teammates one thing it would be:

Remember that rowing is just one aspect of your college life, so balance is the key. Don't neglect your studies for rowing or rowing for your studies. Always try to look at things in perspective while remembering your goals and dreams; they will guide you when you may have doubts or misfortune in your life.

Gibson says:

"Every pair trial, erg test, and row is an opportunity to show everyone (yourself, teammates, coaches) what you're made of. Leave Washington with no regrets and every opportunity filled to your best potential. You'll leave satisfied with your performance and your time here will be well spent."

I chose Washington because:

I want to be a nurse, and the University of Washington has the best nursing school in the nation.

The best thing about Seattle is:

The diversity and the feeling that the city isn't too big to live in.

My best race was:

My novice year Pac-10 Championship race. All of us were so nervous; we hadn't won that many races, but we all wanted to beat Cal more than anything. We came together and connected and as we started to make a move on Cal, Alysha, the coxswain, called out a power 10 for our coach Erica. For some reason, we all wanted this not only for ourselves and each other, but we wanted it for Erica, and then we bow balled Cal.

I chose Washington because:

Because I LOVED the campus. It was easy to get to practice, it's a beautiful boathouse and they worked hard at a level I wanted to compete at and everyone has fun doing it.

The best thing about Seattle is:

The abundance of water makes it seem not so "big city."

My best race was:

Canadian Henley 2006 in the quad – we were the favorites to win. We were first off the start only to be stopped 200m into the race by 3 BOAT STOPPING CRABS. Then we found ourselves more than 5 boat lengths behind first place. We began our sprint at the 1300m to go and caught up, sadly only getting 3rd but only 0.2 seconds behind 2nd and about 1 second behind 1st.

After I graduate, I plan to:

Go to physical therapy school.
