The University of Washington

Founded in 1861, the University of Washington is one of the foremost institutions of higher education in the nation, richly combining its research, instructional and public service missions.

Its internationally acclaimed faculty includes five Nobel laureates and the winner of the 1990 National Book Award for fiction. Washington is part of an elite group of research universities whose contributions to American life are unique because they generate the basic knowledge upon which practical innovations are based.

The UW student body on the Seattle campus totals about 39,000, with an undergraduate enrollment of approximately 25,000. The UW also has campuses in Bothell and Tacoma, designed primarily for upper division (junior and senior) undergraduates and master's level graduate programs. Total enrollment at these campuses is about 3,600.

For more than 30 years, the university has been among the country's top five institutions in the dollar value of federal research grants and contracts awarded to its faculty. In 2001, the most recent year for which that data has been collected, the UW ranked second overall and first among public universities. Total grant and contract activity for 2002 exceeded \$800 million. More than 80 percent of the university's grant and contract funds come from federal agencies. Research contributes directly to the educational goals of graduate and professional students, as well as to those of undergraduates.

Instruction and research at Washington are supported by a library system that is one of the most extensive in the nation, consisting of five major units and 18 branches, as well as libraries at UW Tacoma and UW Bothell, together housing more than five mil-

lion volumes. In addition to offering instruction in more than 100 academic disciplines, the university offers a spectrum of continuing education courses that advance technical and professional skills and provide opportunities for personal growth and enrichment.

Washington has 17 major schools and colleges: Architecture and Urban Planning, Arts and Sciences, Business Administration, Dentistry, Education, Engineering, Forest Resources, The Graduate School, The Information School, Law, Medicine, Nursing, Ocean and Fishery Sciences, Pharmacy, Public Affairs, Public Health and Community Medicine, and Social Work.

About 90 percent of the University's undergraduate students are state residents, although instructional programs draw students from every region of the country and overseas.

Most freshmen entering Washington are in the top quarter of their high school graduating classes. In

2002, the average incoming freshman boasted a 3.67 high school grade-point average and a combined 1,176 SAT I score.

Beyond its academic and service missions, the UW has a strong economic impact on Washington and the Pacific Northwest. With about 27,000 employees, Washington is the second-largest employer in King County. Washington operates the University of Washington Medical Center and Harborview Medical Center, which annually provide more than 200,000 days of patient care and record more than 300,000 visits to their outpatient clinics.

Washington also plays a critical role in attracting new business to the region. It provides these, and established businesses, with a steady stream of well-educated graduates and with highly skilled faculty members who assist business and industry in a variety

of ways.

The University of Washington in Seattle is located on 703 acres in the city's northeast residential area, a beautiful setting on the shores of Lake Washington and Portage Bay. The majestic Cascade Mountains can be seen to the east and the Olympics loom to the west, while the southern view includes downtown Seattle and Lake Union. The combination of this spectacular setting with buildings in both neo-Gothic and modern styles gives the campus a distinctive aura.

Campus Landmarks

Central Plaza

The well-traveled crossroads of the University, known on campus as "Red Square" because of its red brick paving, has at its borders the Administration Building, Suzzallo Library, Odegaard Undergraduate Library, Kane Hall and Meany Hall. The red brick expanse forms the roof of a 1,000-car underground parking garage built in 1971.

Denny Hall

Built in 1895 and the first building on the present campus, it now houses classrooms and offices. Its cupola features the Varsity Bell, brought from the original downtown campus and rung only during Homecoming and selected special events.

Bank of America Arena at Hec Edmundson Pavilion

This athletic facility, utilized by men and women students in intercollegiate and intramural sports programs, has a seating capacity of 10,000 for men's and women's basketball. The pavilion was built in 1928 to honor Hall of Fame basketball coach Clarence S. "Hec" Edmundson, and was renovated in 2000.

Frosh Pond and Drumheller Fountain

Designed in 1909 for the Alaska-Yukon-Pacific Exposition, rebuilt in the 1930's; fountain added for the University centennial in 1961; leads to Rainier Vista mall.

Golf Driving Range

Facility with night-lighted tees, two putting-chipping greens for students, faculty, staff, current members of the Alumni Association, and the general public; located at the northeast corner of the Montlake parking lot.

Husky Stadium

The largest stadium in the Pacific Northwest. The 72,500-seat football, soccer, and track and field complex was dedicated in 1920. A 15,000-seat upper deck was added in 1950, with 12,700 seats added in 1987. The playing surface features FieldTurf and a Chevron track. The field runs east and west, opening onto Union Bay.

Intramural Activities Building

"IMA", with courts for basketball, volleyball, badminton, racquetball, tennis, squash, handball, archery and fencing facilities, swimming pool, saunas, and dressing rooms for students, faculty, staff, and guests. A major renovation over the last few years has made the IMA a campus showpiece.

Liberal Arts Quadrangle

"The Quad", a traditional campus cluster of buildings and open space; architecture is collegiate Gothic; trees, lawns, and brick paths, as designed in the University's 1915 campus plan.

Campus Observatory

Features a vintage six-inch refracting telescope, which is available for free public showings on selected clear nights. Located since 1895 near the north entrance to campus.

South Campus Center

Student union facilities with dining and meeting rooms, bank branch, lounges, and University Book Store branch; completed in 1975 and located on Portage Bay south of the Health Sciences complex.

Husky Union Building

"The HUB," a social, cultural, recreational, and service center for students and the University community with dining facilities, University Book Store branch, auditorium, bank branch, ticket office, offices for student organizations, barber shop, meeting rooms, lounges, microcomputer laboratory, ballroom, and game rooms; first occupied in 1949 with subsequent additions and renovations.

Sylvan Theater

Site of early-day graduation ceremonies; an outdoor area featuring a grass "stage" with the four columns from the administration-classroom building constructed in 1861 on the original campus in downtown Seattle.

University Libraries

Suzzallo & Allen, Odegaard Undergraduate, Health Sciences, K.K. Sherwood, East Asia, UW, Bothell Library, UW, Tacoma Library, and 15 other branches; more than 5 million volumes, plus archival materials and manuscripts, maps, newspapers, microforms, research reports, media materials and government publications.

Waterfront Activities Center

Boating facility located behind Husky Stadium on Union Bay; variety of activities available, including canoe and rowboat rentals and private boat storage.

Student Athlete Academic Services

Opened in May of 2005, the state-of-the-art Conibear Shellhouse and Student Services Building houses Washington's academic tutoring offices, as well as study and dining halls.

The University of Washington is committed to promoting student athletic achievement as a complement to the greater academic mission of the University. Recognizing this commitment, the staff of Student-Athlete Academic Services (SAAS) assists student-athletes through a variety of academic and life-skills programs that address the needs of a diverse population.

The primary goal of SAAS is to help student-athletes develop their academic potential and achieve success in reaching their academic goals. The staff of SAAS works closely with faculty, coaches, student services and University administration to help student-athletes balance

the demands of academics and athletics.

In addition to its role as a direct academic service provider, Student-Athlete Academic Services also strives to make student-athletes aware of the various services and resources available to them at the University, and to help them make the best use of these resources.

In addition to classroom effort, the SAAS staff of Academic Advisors, Academic Coordinators, a Tutorial Coordinator and a Learning Specialist recognize that a student-athlete's academic performance is influenced by a number of factors, including individual learning styles; satisfaction with his or her choice of major; personal and

social life; as well as athletic standing.

Because of these various influences, SAAS directly assists student-athletes with matters pertaining to:

- Academic Planning and Advising
- Tutorial and Specialized Classroom Support
- Personal Counseling
- Admissions
- Financial Aid

In addition to these services, SAAS houses a computing center for student-athlete use.

In the spring of 2005, SAAS moved its operations into the state-of-the-art Conibear Shellhouse and Student Services Building, among the finest student-athlete academic support facilities in the nation. In addition to housing the crew house and student dining facilities, the new building features state-of-the-art computer lab facilities, large study tables and small-group tutoring spaces, a student lounge, and staff offices.

With its central location in the UW athletic department, close to all of Washington's athletic practice facilities, the new academic center is an outstanding resource for student-athletes, helping them reach for the same standard of excellence in academics as is sought in athletics.

Washington's tutors and other academic services employees are committed to providing student-athletes the learning tools with which to build success in their academic and post-collegiate employment careers.

Strength, Conditioning & Health

Washington's strength and conditioning program is headquartered in the 12,000-foot weight room facility that houses a balance of machine apparatus and free weights as well as a variety of modern fitness equipment.

The spacious room is equipped with some 15,000 pounds of Olympic weights, 34 Olympic bars, eight Olympic benches, six incline benches, three military benches, three knee extension and hamstring curl machines, eight Olympic power racks, 60 pairs of dumbbells, six exercise bikes and three Stairmasters, as well as numerous other cutting edge apparatus.

The weight room, housed in the Graves Annex Building (which also contains the football coaches' offices as well as offices for most other sports' coaches), doubles UW's previous workout space and resources. Planned fitness programs are aided by computerized training and evaluations, video instruction, a plyometric testing area, and a sauna and jacuzzi. Apparatus representing the latest technology in fitness and strength training are continually being added to the weight room, ensuring that Husky athletes have every opportunity to excel.

Located near all of the athletes' locker rooms and practice and competition venues, the weight room is a convenient stop during the student-athletes' busy days.

A long list of Husky athletes have been voted to the National All-Strength Team.

Washington's athletic training staff consists of seven full-time certified athletic trainers, 12 student trainers and a staff of seven doctors, all working to help provide the 700-plus Husky student-athletes the best available medical care. In addition, a network of other specialists – dentists, optometrists, etc. – are all available for any of the UW student-athletes' needs.

University of Washington Sports Medicine, located in Bank of America Arena, provides medical and orthopaedic care for the Husky athletes as well as the Seattle community. UWSM physicians include Drs. Roger Larson, John O'Kane, Trey Green, Kim Harmon, Jon Drezner, Carol Teitz, Chris Wahl and Monique Burton. They are all fellowship trained in sports medicine and have faculty appointments and clinical practices at the UW.

The physical health and safety of all Washington student-athletes is of paramount importance to all Husky coaches and medical personnel.

To that end, the Husky training staff vigilantly continues the educational process, keeping informed on all of the various advancements in the field of sports medicine.

Washington Athletic Facilities

The University of Washington has undergone a building boom over the past decade and a half, as the athletic campus has seen the addition of state-of-the-art facilities. In 1997-98, the men's and women's soccer teams moved into a beautiful new soccer stadium located on the north end of the complex, while the baseball team broke into its new digs just south of the new soccer facility. The baseball stadium has since added FieldTurf on the infield surface, making it one of the premier facilities in the northwest. Both stadiums are open to stunning views of the Cascade Mountains and majestic Mount Rainier.

By far the largest addition to the athletic facilities is the Dempsey Indoor facility, located just outside the northeast corner of Husky Stadium. The 80,000 square-foot home of Husky Indoor track opened in 2001 to rave reviews. It includes a full-sized football field with a FieldTurf surface and is surrounded by a six-lane MONDO surface track. Dempsey, as it is called, houses practices for many of the 23 teams, as well as other events throughout the year.

Looming high above Lake Washington, Husky Stadium, home to the UW's football and track and field teams, is a unique structure that has seen considerable growth since its original opening in 1920. Its current capacity of 72,500 makes it the largest stadium of any kind in the northwest, and of the 20 largest college football stadiums in the country. It has gained a reputation as one of the most scenic stadiums in the country with the east end opening up to beautiful views of Lake Washington.

**Bank of America Arena at the Hec Edmundson Pavilion****Nordstrom Tennis Center****Conibear Shellhouse****Husky Softball Stadium**

Bank of American Arena at Hec Edmundson Pavilion is the workhorse of the Husky facilities. The Pavilion, built in 1927, is the competition home of Husky men's and women's basketball, volleyball and gymnastics. It also houses nearly all of the Huskies' locker room facilities and the equipment and training rooms. Virtually every UW team makes use of the arena in some capacity. As part of the Campaign for the Student-Athlete (see next page), Bank of America Arena underwent a 16-month renovation before re-opening in 2000. The 2006-07 year will be the 81st year for the arena, which has seen the men's basketball team compile more wins in its home arena than any other team in the country and houses the 2005 NCAA Champions in volleyball.

The Husky facilities family also includes Husky Softball Stadium, located just east of Husky Stadium and also right next to Lake Washington. In 12 years the stadium has hosted four NCAA regional tournaments and been the home of two Pacific-10 conference champions. The stadium was slated for success from day one, when UW pitcher Nancy Wagner christened it with a no-hitter against Willamette.

The Lloyd Nordstrom Tennis Center, the top indoor facility in the west, is another of the UW's fine athletic buildings. Located directly to the north of Husky Stadium, it is the indoor site for both Husky tennis teams. The Conibear Shellhouse joins the other Husky venues that have recently undergone complete renovations. Serving the Husky crew teams since 1949, it has recently been expanded by 75 percent, to 47,250 square feet. It also serves as the hub for all Husky athletes, with a dining room, computer labs and study areas.
